

Precision Painting

and Reconstruction

Dear residents,

Precision Painting & Reconstruction has been selected to repaint all buildings and carports community wide. The painting will start on the week of February 19th and will take approximately 6 months to complete. We have attached a production map below so you can see where we will be starting and how we will be moving through the community. There are a total of 5 phases and each phase will take roughly 6-8 weeks to complete. On page 2 you will find our notice that can be posted prior to starting each new building. Thank you for your patience as we beautify the community!
